

Dr. Larry A. Reynolds is an environmental and natural resources lawyer who has practiced across a number of Canadian jurisdictions over a legal career that spans nearly 30 years. Dr. Reynolds' practice has included a number of Canadian legal "firsts" including the first successful prosecution involving a *Cetacean* under the *Species at Risk Act* and the first judicial review of an administrative tribunal in Nunavut, which included issues relating to the protection of marine mammals. Dr. Reynolds is a past doctoral fellow with the Social Sciences and Humanities Research Council of Canada and with the Environment Canada Tri Council *Eco-Research* Program/University of Alberta *Eco-Research* Chair in Environmental Risk Management. He is also a past adjunct professor with the University of Alberta Environmental Health Program, and past sessional lecturer with the Faculties of Law and Extension. Dr. Reynolds is associated with the Vancouver law firm Cliffe Tobias, Barristers & Solicitors and may be contacted at [larry.a.reynolds@gmail.com](mailto:larry.a.reynolds@gmail.com).

The author wishes to acknowledge the contributions of Dr. John K.B. Ford, adjunct professor and head of the *Cetacean* Research Program, Pacific Biological Station, Fisheries & Oceans Canada for his ongoing contributions to *Cetacean* research and protection as well as his willingness to pass his knowledge along to others, including the author. The author also wishes to acknowledge Fisheries Officer Carlos Paramio of Fisheries & Oceans Canada for his long-term dedication and commitment to the protection of *Cetaceans* along the Pacific Coast of Canada. Finally, the author wishes to thank Ms. Jessica Reynolds for her valuable contributions with respect to the development of this paper.
